REGISTER TODAY.

A RE THE MEN who have no interest in Salt Lake's future welfare, actual or sentimental, to control the city election next Tuesday? This is a question that every unregistered voter must answer for himself or herself today. You may be sure that the saloon bum, the hanger-on about disorderly houses, the gambler, the transient tramp will see to it that their names are on the registration books in the districts in which they reside, and in as many othkind of people to choose the officers who are to have charge of the affairs of this city for the next two years?

If you do, stay away from your registration office today. Between the hours of 7 o'clock this morning and 9 o'clock by every resident of every district, a registration office will be open. The hours are such that no man can plead lack of time. Comparatively few inditefore 7 o'clock. None is compelled to laby'r continuously from before 7 o'clock

It may be said without fear of contradiction that there isn't a legal voter In the city who, not physically incapacitated, who cannot find time today to see to it that his name is properly on a registration book. Those whose names are not placed there today either do are not placed there today either do hay, but his machinery was not damnot care a straw about the conduct of the city government or they are grossly aged and he will shortly be ready for tucky is sent out, it is a waste of time to add that it ended in a killing. areless. DEMOCRATIC PLATFORM. The Democratic party of Salt Lake City, in convention assembled, declares its entire confidence in the integrity of the people of Salt Lake City, and submits to their candid judgment the candidates of this con-vention and the precinct conventions.

The time when this city will be the great comi the time when this city will be the great commercial and social me tropolis of the intermountain region is close at hand. New railroads are building and new enterprises are being projected. The population is increasing and will continue to increase. These conditions require that Salt Lake City should have a clean and straightforward business administration, and this the Democratic party proposes to give.

ministration, and this the Democratic party proposes to give.

To the end that capital may be attracted for investment; that the better class of mechanics, artisans and laborers may be induced to cast their lot in this community; that all desirable citizens may see the advantages which accrue in a municipality well governed and well regulated, we declare that men chosen to fill the offices and perform the duties prescribed by law should be selected with a view to their especial fitness and qualification, and not because of their preference for this or that person for United States senator.

We especially call attention to the policy of obstruction pursued by the present Republican administration, through its mayor, to every at-tempt to increase the water supply of this city, and to the entire lack of any comprehensive or statesmanlike plans for dealing with the water supply question as a whole.

The people demand and have demanded an increased water supply, The people demand and have demanded an increased water supply, so that every citizen and every enterprise may have at all times an ample amount of pure water for domestic and other uses. We pledge our candidates for mayor and the council to take immediate steps toward an extension of the system sufficient to provide for all those residing within the corporate limits of the city.

We arraign the Republican; arty for its absolute abandonment of all questions affecting public interest and municipal government, and the subordination of everything pertaining thereto to the one question as to what particular faction of that party shall dictate and control in the selection of candidates for office. We emphatically protest against the policy which, disregarding everything calculated to improve conditions in our local government, makes of our city a means by which the schemes of designing politicians are furthered and carried into effect.

We declare in force of improved expirence provides and the schemes. We declare in favor of improved sanitary conditions and the selection of competent men in the health department, to the end that epidemics of typhoid fever and kins red diseases may be eliminated.

We favor public improvements of all kinds, without extravagance: especially do we favor the improvement of the streets, and we demand the prompt and rigid enforcement of all contracts made with the city. The present fire department is not adequate to the needs of a city of this size. We are in favor of improved apparatus and increased force, to the end that property may be protected and insurance rates reduced. We pledge our candidates for mayor and council to the immediate selection of a permanent chief of police, and we favor increases in the department for the protection of the lives and property of the citizens.

With the history of four years of Republican misrule before them, we ask the citizens of this city to decide if it is not high time for a change of measures and of mer. With the story of the Republican primaries and city convention fresh in their minds, we ask the independent voters if they believe in the endorsement of ring methods. Believing that it has done its duty to itself and the people in the past, and pledging its united support to the welfare of the city in the future, the Democratic party submits its case to the candid decision of all the voters. It urges every man and woman in the city, irrespective of politics, to register and vote, reminding each and every one of them that he who complains of a condition and does nothing to remedy it has
